

DRA. PATRICIA PONCE PEÑA

Position: Science Teacher
Phone : Cell: 6181343710
Email: pponce@ujed.mx

Education:

Degree: Chemistry
Master: Chemistry in Organic Chemistry
PhD: Chemistry in Polymer
Postdoctoral: Hybrid and composite materials

Professional Experience:

Full-time professor, UJED
Subject Professor, UVM, UNITEC
Head of Research and Development, AZOR Group
Research Chemist, Head of Research, METAPOL
Junior researcher Owner, Group DESC
Subject Teacher, UNAM

Research lines:

Synthesis and characterization of composite and hybrid materials.
Reverse engineering of polymeric materials
Research and analysis methods materials: physicochemical, spectroscopic and chromatographic.
Molecular simulation and chemical synthesis of organic compounds and polymers.
Methods of analysis and formulation in metallic pigments for solvent based and water based systems

Selected Publications:

- P. Ponce-Peña, M.A. González-Lozano, M.A. Escobedo-Betrado, P. de Lira-Gómez, E. García-Sánchez, E. Rivera, L. Alexandrova, "Synthesis and characterization of potassium hexatitanate using boric acid as the flux", *Ceramics International* DOI: 10.1016/j.ceramint.2015.04.093 04/2015.
- Patricia Ponce-Peña, Edgar López-Chipres, Edgar García-Sánchez, Miguel Angel Escobedo-Bretado, Brenda Xiomara Ochoa-Salazar, María Azucena González-Lozano, "Optimized Design of an ECAP Die Using the Finite Element Method for Obtaining Nanostructured Materials", *Advances in Materials Science and Engineering*, 10.1155/2015/702548, DOI:10.1155/2015/702548

Directed thesis:

Graduates: 13 degree by Thesis 7 undergraduate degree otherwise.

In Process:

Degree Subject: Evaluation of antibacterial plastic membranes pineapple juice fermentation.

Degree Subject: Biosynthesis of cellulose by Acetobacter, modifying the conditions of oxygenation.

Bachelor Topic: Evaluation of composite panels to develop type W-based cellulosic materials recycled.

Bachelor Topic: Manual 2 polymers practices.
